

2009 River Bend Gun Club Smallbore Rifle Prone Champions Crowned

This year's high points championship "chase" consisted of sixteen championship match dates including seven NRA-sanctioned smallbore rifle prone *Conventional* tournaments, five NRA-sanctioned smallbore rifle prone *Metric* tournaments and four non-sanctioned 200 yard smallbore rifle prone matches. During the nine months beginning March 21, 2009 and ending on November 21, thirty-five RBGC members earned championship points and collectively fired more than 24,000 shots for record. Club members who competed in any of those sixteen matches were awarded championship points based on their final score rank within class and overall. After the final match was fired, each member's earned points were totaled and the champions were determined based on championship points accumulated within each of the three disciplines and overall.

The 2010 Championship Points Chase will begin with the NRA Conventional 1600 scheduled for March 20, 2010 on range MP2. For information about the smallbore championship visit the website or call or write Tommy Steadman at 404-392-7050 or steadmant@comcast.net.

The championship final results bulletin is on the following page.
